

Maxso[®]

X92

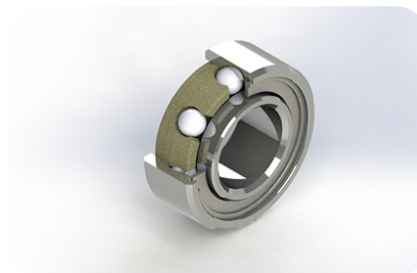

Implant handpiece

Experience unrivaled cutting power with the X92 implant handpiece by Beyes. This powerful unit features both internal and external irrigation for maximum cooling where it is needed the most. Its outstanding ergonomic grip offers the perfect balance, resulting in high precision operation. A titanium-coated, scratch-resistant surface ensures longstanding durability. Beyes' X92 implant handpiece has been engineered to ease the most challenging procedures.

Push Button Chuck

Effectively cools the entire surface of the bur that avoids overheating and provides better patient comfort.

Ceramic Ball Bearings

Sturdier yet lighter than steel, ceramic bearings increase both efficiency and longevity of the unit.

Dual Irrigation

An internal and external irrigation system supplies ample cooling water to the operating area.

Mini-sized Head

Experience unobstructed access with an extra small head size.
