

APEXPILOT® G2

Cordless Endo Motor

ApexPilot G2 can be connected to the matched apex locator to realize apex locating function. By connecting the ApexPilot G2 to the matched apex locator, the position of the file tip inside the canal can be monitored during the procedure and many automatic functions such as auto apical reverse can be activated.

High Performance Brushless Motor

Adjustable reciprocating angle (10° interval; adjustment range: 20°-400°); Accurate rotating angle reduces risk of instrument fracture and enables higher preparing efficiency.

Efficient & Safe

Super high torque, high speed, fast response, more accurate output, more stable, to ensure more efficient & safe preparation.

Lower Noise

Smooth rotation, lower noise and small vibration in handpiece. Doctors feel good during operations. Patients feel more comfortable during operation.

6:1 Super Mini Contra-angle

This 360° rotatable and super mini contra-angle allows clearer operation field.
